

WHO WE ARE

Founded in 1974, RADIOMAR has a history that few companies can match. It is a distributor of equipment and integrated solutions (turnkey) for navigation, marine telecommunications, professional fishing, satellite communication, internal communication.

The ISO 9001 certification, demonstrates its continued commitment to high quality services.

The company stands out in the market by offering to its customers complete support, from the advice of the most appropriate equipment, projects, systems integration, installation, commissioning, training and after sales service through free calls or Preventive Maintenance Agreements, as well as GMDSS and VDR Survey.

OUR POLICY

To provide trustworthy products and high quality services to the entire satisfaction of the customer.

OUR MISSION

To meet and exceed the expectations of our customers in Marine Electronics Solutions, continually seeking to improve the quality of our services and products in order to attend the growing needs and expectations of our customers.

OUR VISION

Increase sustainably our income in 20% per year until the end of 2020.

VALUES

OUR

People first. The quality of our service and security in its execution are not negotiable. We have responsibility and ethics in every decision, passion for what we do and respect for everyone inside and outside the company.
