

QUALITY POLICY

RADIOMAR is committed to using the past experiences and new technologies available, to continually improve the processes that make up its operations, providing to its employees the necessary resources to attain a good performance.

QUALITY MANAGEMENT SYSTEM NBR ISO 9001

The Quality Management System of RADIOMAR was implemented in order to meet all requirements of the Standard NBR ISO 9001 version 2004 and ensure that all processes are customer-oriented and continuously improved.

- We identified the Procedures for Achievement and Support needed for the organization's success and satisfaction of customer needs as well as their sequence and interaction.
 - We established methods and criteria to ensure that the operation and control of these procedures are effective.
 - We established methods for obtaining and continuing use of data and information, and actions that lead to continuous improvement of procedures and consequently, organizational performance.
 - We established methods to ensure the availability of necessary resources to Maintenance and Improvement of Quality System Management .
-
